DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over

JP70005599

'599 teaches a paste to be applied to a desired portion of a base material and detecting fatigue crack in the base material (Abstract)

'599 fails to teach said paste comprising: particles having diameters of 2 μm to 40 μm ; and an oil having viscosity of 5,000 centipoises to 15,000 centipoises; wherein the particles and the oil are mixed with each other and the particles comprise light-colored ceramics including white ceramics.

But it is well known in the art to make paste with particles including white ceramics with certain diameter and oil having certain viscosity, and It would have been obvious to one of ordinary skill in the art at the time of the invention was made to utilize these known paste on the '599 so as to detect the cracks in metal.

A claim containing a “recitation with respect to the manner in which a claimed apparatus is **intended to be employed does not differentiate the claimed apparatus from a prior art** apparatus” if the prior art apparatus teaches all the structural limitations of the claim. Ex parte Masham, 2 USPQ2d 1647 (Bd. Pat. App. & Inter. 1987).

Allowable Subject Matter

3. Claims 5-8 are allowed.

Response to Arguments

4. Applicant's arguments filed 3/1/10 have been fully considered but they are not persuasive. See the office action.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action.
